

# **Laser Printable Decal Media.**

## **Clear and White Decal Film.**

Adhesive and Static Cling for color laser printers.

New products 2016.

### **Glossy white and clear vinyl with permanent adhesive:**

Features protective paper covering Blue Line over the leading edge on each decal sheet.

Ideal for small manufacturing run or production presentation (mock up) where you need professionally printed product label to introduce you idea and promote you product for small market test or marketing demonstration. The glossy white vinyl will give you creation better presentation that you may be able to achieve using just adhesive paper. Ideal for personal hygiene products such as shampoo bottles and general hair-care products and other cosmetic products.

Using selected color in your artwork the clear film will show the color of the substrate or the vessels and you can use the texture and color of the container (package or bag being used) to further enhance the appeal of the label.

The clear papilio adhesive decal vinyl film has been used extensively on liquid containers such as Wine and Water bottles, food supplements containers and so on.

The white permanent adhesive decal film looks great on white tin cans, bags and candy containers as well as on electronic instrument panels, remote controlled drones and as bumper sticker meda.

In addition to the clear and white permanent adhesive vinyl this media also comes with removable adhesive and as static cling.

You will find more informations about the adhseive film (decal paper) on our e-commerce website [www.texascraft.com/hps](http://www.texascraft.com/hps)
